

Application

Millennium Expert is a feature rich access control system designed to fit a wide range of applications and sites. Its architecture is suited for organizations that wish to maintain a solid access control network using different communication modes. In addition, Millennium Expert allows operators to manage their access control system from a standard PC workstation anywhere on their communication network. Its architecture is specially suited for organizations that wish to maintain operations in multiple locations utilizing a common SQL Server database.

Features

- Reliable network with distributed intelligence: Doors function normally even if communication is off-line
- Modular expansion; one door or one site at a time
- Economical upgrade from other access control systems
- Adapts to facilities of any size
- Interfaces to most types of readers and cards in the industry
- Interconnects with most communication networks (TCP/IP, twisted pair, leased line, fiber optic, dial up and wireless technologies)
- ODBC compliant database with easy data export and import
- Increased security with a proprietary communication protocol
- Single card swipe lockdown feature

System Capacities

- | | |
|--|--|
| <ul style="list-style-type: none"> • Number of Sites: 1,000 • Access Points per System: 100,000 • Readers per Access Point: 1 • Elevator Control: 96,000 floors, 10,000 elevator cars • Workstations Supported: 32 • Relays Supported: 200,000 (on/off) plus 80,000 optional | <ul style="list-style-type: none"> • Cardholders: Unlimited • Time Zones: Global 200 (available to all tenant groups), or 200 per tenant group, 4 intervals per zone, 20 holidays and 8 vacation • Alarms per Access Point: 7 including door contact and tamper |
|--|--|

PC Minimum Requirements

Hardware:

- Intel Core 2+ GHz
- HD: 200GB/100GB (Server/Workstation)
- Serial Port DB9 or USB 2.0+ or NIC (half or duplex)
- RAM: 4GB*/2 GB (Server/Workstation)
* = 8GB if SQL Server also resides with Millennium
- CD/R-W
- Screen Resolution: 1024x768

Software:

- Server OS: Windows 7 XP/Windows Server 2008 (SQL Server 2008) with latest service packs
- Workstations: XP/Windows 7 (latest Service Packs)
- Network Protocol: TCP/ IP for workstation and Lantronix capabilities

Optional Software Modules:

- Millennium Badging

System Management

User Management:

- Complete user profile
- Customizable fields
- Complete activity reports
- Card auto-expiry
- Lost/stolen card tracking

System Operators:

- Master Levels: 2
- Custom Levels: Unlimited
- All software features can be selectively assigned to operators

Access Point Management:

- Complete user access control with flexible time schedules
- Full current status (alarm and relay conditions)
- Remote unlock
- Temporary relay override (Lockdown or Release)

Generate Reports:

- System Audits - Activity
- Alarm Events - History
- Door Status - Site Status

System Features

Scheduler:

- Book events
- Schedule door locks/unlocks, even days or weeks in advance
- Event Recurrence Manager

Alarm Monitoring:

- Graphical Screens: 4 maps per alarm point
- Alarm Sound: Attach .wav file to alarms
- Acknowledgements, instructions and descriptions
- Facility (Guard) Tours:
- Up to 96 tours; global or individual

Access Point Relays:

- 2 per access point
- 8 modes available including alarm response modes

Muster Trac Reporting:

- Exceptions - Attendance
- Overtime - Absence/Presence

Reader Technologies Supported:

- Proximity
- Biometrics
- Smart Card
- ABA magnetic stripe
- PIN
- Combined PIN / Stripe / Prox
- Wiegand 26-50 bit
- Marlok Keys

Anti-passback:

- Global, Paired or Timed

Fips 201 Compliant
